The biggest advantage of FunFón SMART is that you have an opportunity to choose items (minutes, SMS, data) in your bundle, as you want.

How FunFón SMART works?

You just choose the price you wish to pay monthly (8€, 12€, 20€) and, then you choose the items that fit you the most.

Each item costs you only 2€ (100 minutes to EU = 2€, 100 SMS/MMS to EU = 2€, 1GB of mobile data in EU = 2€).

All items include calls / SMS and data in the whole European Union. You can call / text to EU for the same prices as in Slovakia. Also, you can use data in EU.

In case you do not spend all (minutes, texts, and data), that you have chosen for 30 days, it will automatically roll over to the next 30 days.

If you spend all your pre-paid Minutes/SMS/Mobile Data, you can simply top it up by **texting to 929**:

- For 100 minutes – SMS with “MINUTY”
